ECONSULT AFRICA

ECONOMIC CONSULTING SERVICES LIMITED

FORECAST ARENA

TERMS OF USE

Economic Intelligence • Sentiment Aggregation • Research Participation • African Markets

Effective Date: 4 April 2026

Last Updated: 4 April 2026

PLEASE READ THESE TERMS OF USE CAREFULLY BEFORE ACCESSING OR USING THE FORECAST ARENA PLATFORM. BY CREATING AN ACCOUNT, ACCESSING THE PLATFORM, SUBMITTING A FORECAST, OR OTHERWISE USING ANY FEATURE OF THE PLATFORM, YOU ACKNOWLEDGE THAT YOU HAVE READ, UNDERSTOOD, AND AGREE TO BE BOUND BY THESE TERMS IN THEIR ENTIRETY. IF YOU DO NOT AGREE, YOU MUST NOT ACCESS OR USE THE PLATFORM.

These Terms of Use ("**Terms**") constitute a legally binding agreement between you ("**User**," "**you**," or "**your**") and **ECONSULT AFRICA ECONOMIC CONSULTING SERVICES LIMITED**, a company incorporated under the laws of the Republic of Kenya ("**Econsult Africa**," "**we**," "**us**," or "**our**"), governing your access to and use of the Forecast Arena platform, including all associated websites, mobile interfaces, application programming interfaces, data feeds, and ancillary services (collectively, the "**Platform**"). The Platform is designed to serve users across the African continent and globally, with Kenyan law as the governing legal framework.

1. DEFINITIONS AND INTERPRETATION

The following defined terms apply throughout these Terms. Precise definitions are essential to the proper legal characterisation of this Platform and the services it provides. Capitalised terms not otherwise defined herein have their natural meaning.

1.1 "Econsult Africa," "we," "us," or "the Company" means Econsult Africa Economic Consulting Services Limited, a company incorporated under the Companies Act (Cap. 486, Laws of Kenya), and all affiliated entities, officers, directors, employees, agents, contractors, and licensors.

1.2 "Platform" means the Forecast Arena website, mobile applications, APIs, data products, and all related digital infrastructure accessible at econsult.africa and any successor domains, operating as a forecasting and sentiment intelligence aggregation service.

1.3 "User," "you," or "your" means any individual or entity that accesses, registers on, or uses the Platform in any capacity, from any jurisdiction.

1.4 "Forecast Question" means a structured question published by Econsult Africa relating to a real-world macroeconomic, geopolitical, financial, or social outcome, posed for the purpose of eliciting and aggregating the informed, analytical views of participants. Forecast Questions concern observable, externally verifiable real-world events determined entirely outside the Platform.

1.5 "Forecast Submission" means a User's voluntary expression of an economic expectation, probability assessment, or directional view submitted in response to a Forecast Question, constituting an act of research participation and skill-based analytical expression.

1.6 "Conviction Commitment" means the optional, voluntary allocation of capital by a User to a submitted Forecast Submission, serving as a credibility and conviction signal that reflects the User's degree of genuine belief in their Forecast. A Conviction Commitment is not a wager, bet, stake, or game of chance. It is a research design mechanism that elicits high-quality, sincere sentiment signals from participants. No Conviction Commitment is required to participate.

1.7 "Sentiment Pool" means the aggregate of all Conviction Commitments submitted across all positions on a given Forecast Question, held by Econsult Africa for the purpose of calculating and distributing Accuracy-Based Recognition to accurate forecasters upon Resolution. The Sentiment Pool is parimutuel in nature: it is funded entirely by participants, and Econsult Africa neither supplements it nor underwrites it from its own funds.

1.8 "Accuracy-Based Recognition" or "Sentiment Return" means the distribution made to participants whose Forecast Submission matched the resolved outcome of a Forecast Question, calculated proportionally from the Sentiment Pool after deduction of the Platform Fee. An Accuracy-Based Recognition is a participation incentive linked to demonstrated forecasting skill. It is not an investment return, prize, winnings, or gambling payout within the meaning of any gambling, gaming, or financial-services legislation in any jurisdiction.

1.9 "Resolution" means the determination, by reference to objective, externally verifiable data published by a designated Resolution Source, of the verified outcome of a Forecast Question. Econsult Africa does not determine, influence, or adjudicate economic outcomes.

1.10 "Resolution Source" means the objective, externally verifiable public data source designated for determining the outcome of a Forecast Question, such as the Kenya National Bureau of Statistics (KNBS), Central Bank of Kenya (CBK), International Monetary Fund, World Bank, African Development Bank, or equivalent national statistical agencies and official institutions across Africa and internationally.

1.11 "Platform Fee" means the service charge (currently 3.5%) charged by Econsult Africa on Conviction Commitments and Accuracy-Based Recognition distributions. The Platform Fee is fixed and identical regardless of which outcome is resolved on any Forecast Question, representing compensation for infrastructure, editorial research, compliance operations, payment processing, and platform maintenance. It is an infrastructure service charge, not a house margin, bookmaker's spread, or risk-based pricing mechanism.

1.12 "Consensus Price" means the real-time implied probability of a given outcome, calculated automatically by the Platform's Automated Probability Mechanism (APM) from the distribution of participant activity. The Consensus Price is crowd-determined and is never set, adjusted, or manipulated by Econsult Africa.

1.13 "Automated Probability Mechanism" ("APM") means the mathematical formula by which the Platform calculates Consensus Prices: implied probability = Conviction Commitments for this outcome ÷ total Conviction Commitments across all outcomes, bounded between 0.05 and 0.95. The APM is a passive, algorithmic function reflecting participant behaviour; Econsult Africa exercises no discretion over its outputs.

1.14 "Wallet" means the internal ledger account maintained by Econsult Africa reflecting a User's available balance, funded by deposits and credited with Accuracy-Based Recognition, from which Conviction Commitments are optionally made.

1.15 "Aggregated Outputs" means consensus probability distributions, sentiment indicators, expectation indices, forecast distributions, and any other statistical, analytical, or research outputs derived from the aggregation and anonymisation of User participation data.

1.16 "Service Fee" means any operational, administrative, or infrastructure fee charged by Econsult Africa for access to Platform features, clearly disclosed at the point of use.

1.17 "User Content" means any commentary, rationale, analysis, or other content submitted by a User through the Platform.

1.18 "Participation Rules" means the specific rules, parameters, and specifications published for each Forecast Question, which form part of these Terms by reference.

1.19 Interpretation. Headings are for convenience only and do not affect interpretation. References to 'including' mean 'including without limitation.' Words in the singular include the plural and vice versa. References to statutes include all amendments, consolidations, and successor legislation. Where any conflict exists between these Terms and the Participation Rules for a specific Forecast Question, the Participation Rules shall prevail with respect to that specific Forecast Question only.

2. PLATFORM IDENTITY, LEGAL CHARACTERISATION, AND REGULATORY POSITIONING

This Section is integral to these Terms and constitutes a material part of the basis of the bargain between the User and Econsult Africa. Users must read and understand it before participating in any Forecast.

2.1 Nature of the Platform

Econsult Africa operates Forecast Arena as a crowd-sourced macroeconomic forecasting and sentiment intelligence platform. The Platform's primary purpose is to aggregate the informed, analytically grounded views of professionals, researchers, analysts, and engaged citizens on macroeconomic and geopolitical questions relevant to Africa's economic and political development. The aggregated output — a real-time

probability signal reflecting collective informed opinion — is an information product of independent commercial and research value. The Platform is designed to advance economic literacy, transparency, expectations analysis, and public-interest market intelligence across the African continent and beyond.

2.2 Research and Economic Intelligence Rationale

The collection and aggregation of distributed economic expectations constitutes a legitimate and well-established research methodology, employed by academic institutions including the University of Iowa (Iowa Electronic Markets, est. 1988), Oxford University, and the Brookings Institution, as well as by central banks and international financial institutions including the IMF and World Bank. The Platform applies this methodology at scale to generate real-time economic sentiment data and probability-weighted consensus indicators that contribute to informed public discourse, research, policy analysis, and economic decision-making in African markets.

2.3 What the Platform Is Not — Categorical Exclusions

To the maximum extent permitted by applicable law, you acknowledge and agree that the Platform is not offered, designed, structured, licensed, or intended to operate as, and shall not be construed, characterised, or used as:

(a) **Not a gambling or betting product.** The Platform does not constitute, and shall not be construed as constituting, a gambling product, betting service, gaming activity, lottery, prize competition, sportsbook, bookmaker, casino, or any regulated activity under the Gambling Control Act, 2025 (Kenya) or any equivalent gambling or gaming legislation in any other jurisdiction. Specifically: (i) Forecast Questions concern real-world events — inflation figures, policy decisions, election results, economic indicators — whose outcomes are determined by forces entirely external to the Platform; (ii) outcomes are not random, not algorithmically generated, and not determined by any mechanism on the Platform; (iii) the accuracy of a Forecast is directly and materially influenced by the participant's professional expertise, analytical capability, access to information, and quality of reasoning — a trained economist or sector specialist is systematically more likely to submit an accurate Forecast than an uninformed participant, establishing the predominance of skill over chance that distinguishes the Platform from gambling under the prevailing legal standards of virtually every jurisdiction.

(b) **No 'house' participation; no odds-setting.** Econsult Africa does not take the opposite side of any User's Forecast Submission, does not operate as a counterparty, does not set odds, does not act as a bookmaker, and does not price risk. Unlike a bookmaker or betting operator, Econsult Africa has zero financial interest in any particular Forecast outcome. All Conviction Commitments are pooled on a parimutuel basis — the same structural model employed by stock exchanges, commodities markets, mutual funds, and academic prediction markets — and Accuracy-Based Recognition is distributed from that pool to accurate forecasters proportionally. The Platform does not create or guarantee odds and does not fund payouts from its own account.

(c) **Not a securities exchange, derivatives market, or investment product.** The Platform does not constitute and shall not be construed as a securities exchange, commodities exchange, derivatives exchange, trading venue, broker-dealer, investment product, collective investment scheme, fund, or any product regulated under the Capital Markets Act (Cap. 485A, Laws of Kenya), the Capital Markets Authority (CMA) regulations, or equivalent securities or investment legislation in any jurisdiction. Forecast Submissions are not financial instruments; Conviction Commitments are not investments; and Accuracy-Based Recognition is not an investment return, yield, dividend, or profit within the meaning of any capital markets, securities, or investment legislation.

(d) **Not a deposit-taking business, bank, or e-money issuer.** The Platform does not constitute and shall not be construed as a deposit-taking business, bank, microfinance institution, savings and credit cooperative, savings product, electronic money (e-money) issuer, stored-value facility, digital

wallet, or prepaid instrument regulated under the Banking Act (Cap. 488, Laws of Kenya), the Central Bank of Kenya Act (Cap. 491, Laws of Kenya), the Microfinance Act (Cap. 493D, Laws of Kenya), or the National Payment System Act, 2011, or equivalent legislation in any other jurisdiction. Wallet balances are internal ledger entries, not bank deposits, and are not covered by any deposit protection or guarantee scheme.

(e) **Not a Virtual Asset Service Provider (VASP).** To the extent that the Virtual Asset Service Providers Act, 2025 (Kenya) ("VASP Act") may apply to digital asset activities in Kenya, the Platform does not issue, exchange, transfer, or custody virtual assets as defined under the VASP Act, and does not operate as a virtual asset exchange or VASP. Conviction Commitments and Wallet balances are denominated in fiat currency and processed by licensed third-party payment service providers.

(f) **The Platform Fee is an infrastructure service charge, not a house edge.** A bookmaker's margin is a spread designed to ensure profit from losing bettors regardless of outcomes. The Platform Fee is a flat, transparent charge for the cost of operating the infrastructure — payment processing, editorial research, compliance, data systems, and platform engineering — that enables the forecasting network to function. It is analogous to a brokerage commission or exchange transaction fee. The Platform Fee rate is identical regardless of which outcome is resolved on any Forecast Question; Econsult Africa's revenue is entirely outcome-independent.

(g) **The Conviction Commitment is a credibility signal, not a wager.** The voluntary allocation of capital to a Forecast exists because unpriced opinions carry no informational value. When a participant commits capital to their Forecast, that commitment signals genuine conviction and materially improves the quality of the sentiment data the Platform produces. The Conviction Commitment is a research design mechanism with intellectual precedent in information economics, experimental economics, and prediction market literature. It is entirely optional; Forecast Submissions without Conviction Commitments are equally valid and contribute fully to the Platform's Aggregated Outputs.

2.4 Regulatory Characterisation and Precedent

To the extent any regulatory authority seeks to characterise activities on this Platform, Econsult Africa asserts that: (a) the Platform most closely analogises to an information exchange or prediction market — a category recognised and distinguished from gambling by the Commodity Futures Trading Commission (CFTC) of the United States (which has granted no-action relief to academic prediction markets and explicitly regulated Kalshi and similar platforms as distinct from gambling); the Financial Conduct Authority (FCA) of the United Kingdom; and African financial regulatory bodies including the Capital Markets Authority of Kenya (CMA); (b) the Platform's activities are characterised by predominant skill, transparent parimutuel mechanics, fixed infrastructure fees, and a primary information product — all factors that weigh decisively against classification as a gambling or betting service; (c) the parimutuel model is legally and commercially identical in structure to pari-mutuel horse racing pools, which are universally distinguished from casino gambling and bookmaking across common law jurisdictions; and (d) Econsult Africa is committed to proactive regulatory engagement, including participation in the Capital Markets Authority's Regulatory Sandbox Programme where applicable, and will update these Terms to reflect any regulatory determinations.

2.5 No Advice; No Guarantees

Nothing on the Platform constitutes, and nothing shall be construed as, financial, investment, legal, tax, accounting, or any other form of regulated professional advice. The Platform publishes economic research outputs and enables research participation. Consensus Prices are crowd-generated probability signals — not recommendations. Any reliance on Platform outputs to inform personal, professional, or institutional decisions is undertaken entirely at your own risk. Econsult Africa is not a licensed financial

adviser, investment manager, broker, or regulated financial institution in any jurisdiction.

2.6 African Market Positioning

While Econsult Africa is incorporated in Kenya and these Terms are governed by Kenyan law, the Platform is designed to serve users and generate economic intelligence across the African continent, including but not limited to Kenya, Nigeria, Ghana, Tanzania, Uganda, Rwanda, Ethiopia, South Africa, Senegal, Cameroon, and Ivory Coast. Where features are made available in jurisdictions other than Kenya, Econsult Africa will take reasonable steps to ensure compliance with applicable local laws. Users in jurisdictions outside Kenya are responsible for satisfying themselves as to the legality of Platform access in their respective jurisdictions. The Platform is not intended for use in jurisdictions where its use would be prohibited by applicable law.

3. ACCEPTANCE, ADDITIONAL POLICIES, AND AUTHORITY

3.1 Clickwrap acceptance. By creating an account, accessing the Platform, submitting a Forecast Submission, or engaging with any monetarily enabled feature, you confirm your unconditional acceptance of these Terms. This clickwrap mechanism constitutes a legally binding acceptance under the Kenya Information and Communications Act (Cap. 411A) and the Law of Contract Act (Cap. 23, Laws of Kenya), which recognise electronic acceptance of contract terms.

3.2 Incorporated policies. These Terms incorporate by reference: (a) our Privacy Notice (published on the Platform and compliant with the Data Protection Act, 2019, Kenya); (b) the Participation Rules for each Forecast Question; (c) any community guidelines or integrity policies posted on the Platform; and (d) any third-party payment service provider terms applicable to your chosen payment method.

3.3 Organisational authority. If you use the Platform on behalf of any organisation, entity, or institution, you represent and warrant that you have full authority to bind that organisation to these Terms, and references to 'you' shall include that organisation.

3.4 No reliance. You confirm that you have not relied upon any representation, warranty, or undertaking made by or on behalf of Econsult Africa except as expressly set out in these Terms.

4. ELIGIBILITY AND ACCESS

4.1 Age. You must be at least eighteen (18) years of age to create an account, submit a Forecast Submission, or make a Conviction Commitment on the Platform. By registering, you represent and warrant that you meet this age requirement. Econsult Africa reserves the right to require age verification documentation at any time and to suspend or terminate accounts where age requirements are not satisfied. In jurisdictions where a higher age threshold is required by applicable law, that higher threshold shall apply.

4.2 Jurisdictional eligibility. The Platform may be accessible from multiple jurisdictions across Africa and internationally; however, not all features — in particular features involving Conviction Commitments and Accuracy-Based Recognition — are available in all locations. Econsult Africa reserves the right to restrict, geofence, limit, or prohibit access to the Platform or specific features in any territory, jurisdiction, or User category where offering the Platform or a feature would create legal, regulatory, sanctions, anti-money-laundering (AML), counter-terrorism financing (CTF), tax, or operational exposures for Econsult Africa or its Users.

4.3 User responsibility for local compliance. You are solely responsible for determining and ensuring that your use of the Platform — including any participation in features involving monetary engagement —

is lawful in your jurisdiction and under any professional, employer, public-sector ethics, or industry-specific rules that apply to you. Econsult Africa does not provide legal advice regarding the applicability of any laws to your participation, and makes no representation that the Platform is lawful or available in all jurisdictions.

4.4 Right to refuse or restrict. We may decline to open an account or may restrict, limit, or withdraw access to features where we reasonably determine that such access would create risk to Platform integrity, data integrity, compliance posture, User safety, or the public-interest objectives of the Platform. We are not obligated to disclose the specific reasons for any such restriction where disclosure would compromise a legal obligation or investigation.

4.5 Regulated professionals. If you are a regulated professional (including in finance, public service, government, central banking, academia, or a research institution), you represent and warrant that your participation on the Platform complies with all applicable professional codes of conduct, ethics policies, and institutional rules. The Platform takes no responsibility for any breach by a User of their professional obligations.

5. ACCOUNT REGISTRATION AND SECURITY

5.1 Accurate information. You agree to provide accurate, complete, and current registration information — including your full legal name, country of residence, and valid contact details — and to promptly update such information as necessary. Providing false information constitutes a material breach of these Terms and may result in immediate account termination and forfeiture of any Wallet balance, to the extent permitted by law.

5.2 Single account policy. Unless expressly approved by Econsult Africa in writing, each individual or legal entity may maintain only one account. Multi-accounting — including through nominee accounts, proxy accounts, or shared credentials — is strictly prohibited, constitutes an integrity breach, and may result in termination of all associated accounts and forfeiture of associated balances.

5.3 Account security. You are responsible for maintaining the confidentiality of your login credentials and for all activity conducted through your account, whether or not authorised by you. You must notify us promptly upon becoming aware of any suspected unauthorised access or security compromise. Econsult Africa is not liable for losses arising from your failure to maintain account security.

5.4 Corporate and institutional accounts. If you register on behalf of a legal entity, you represent and warrant that you have full authority to bind that entity to these Terms and that all representations made herein are accurate as to that entity.

6. FORECAST QUESTIONS AND RESEARCH PARTICIPATION MECHANICS

Forecast Questions

6.1 Structure. Econsult Africa publishes Forecast Questions relating to defined macroeconomic, geopolitical, financial, and social outcomes across African and global markets. Each Forecast Question is accompanied by Participation Rules specifying: the outcome definition; the forecast submission window; the resolution date and time; the designated Resolution Source(s); and edge-case protocols (including for data revisions, publication delays, or methodological changes by the Resolution Source).

6.2 Objective resolution. Outcomes are determined exclusively by reference to objective, externally verifiable data published by the designated Resolution Source(s). Econsult Africa does not determine, influence, or adjudicate economic outcomes. Resolution Sources include national statistics agencies (such as KNBS, NIMC, or equivalent bodies), central banks, international institutions (including the IMF, World Bank, and African Development Bank), and other authoritative public data sources.

6.3 Free forecast submission. Submission of a Forecast without a Conviction Commitment is entirely valid and free of charge. It contributes to the Platform's Aggregated Outputs and the User's accuracy-based reputation score. Non-monetary participation may still be subject to verification and integrity requirements.

Conviction Commitments — Signal Enhancement

6.4 Purpose and characterisation. Where enabled for a specific Forecast Question and jurisdiction, the Platform permits Users to make a Conviction Commitment as a mechanism to enhance the informational quality and credibility of their Forecast Submission. Conviction Commitments are priced at the Consensus Price prevailing at the time of commitment, with a minimum commitment of USD 0.95. This signal-enhancement mechanism is designed to encourage honest signal revelation, considered analysis, and substantive engagement with macroeconomic data. It is not offered as a game of chance, wagering entertainment, speculative trading opportunity, investment vehicle, or any other product the primary purpose of which is risk-taking for financial reward.

6.5 No leverage; no borrowing; no credit. Conviction Commitments are made only with funds available in a User's Wallet at the time of commitment. The Platform does not offer, permit, or facilitate borrowing, leverage, margin, credit extension, or any form of financing in connection with participation.

6.6 Non-transferability; personal participation. Forecast Submissions and any associated Conviction Commitments are personal to the User account. They are non-transferable, non-assignable, non-negotiable, and may not be resold, dealt in, or otherwise disposed of on- or off-platform. There is no secondary market, order book, matching engine, or trading facility.

6.7 Position management. Users who have made a Conviction Commitment may, while the Forecast Question remains open, sell their position back to the Platform at the prevailing Consensus Price via the Position Management interface. This AMM-based liquidity feature allows Users to exit their position before Resolution. A Platform Fee applies to all position sales. Econsult Africa guarantees liquidity for all valid position sales while the Forecast Question remains open.

6.8 Participation caps and controls. Econsult Africa may apply participation caps per Forecast Question, per time period, per User, per User category, or per jurisdiction, and may adjust such caps dynamically to protect Users, preserve Platform integrity, and ensure compliance with applicable law.

Accuracy-Based Recognition — Mechanics

6.9 Parimutuel distribution. Upon Resolution, Accuracy-Based Recognition is calculated and distributed from the Sentiment Pool to Registered Outcome Participants whose Forecast Submission matched the resolved outcome. The distribution formula is:

Gross Return = participant's shares × USD 1.00, where shares = Conviction Commitment ÷ Consensus Price at time of entry
Scale Factor = min(1.0, Sentiment Pool ÷ Sum of all Gross Returns for accurate participants)
Net Recognition = Gross Return × Scale Factor × (1 – Platform Fee Rate)

6.10 Self-sustainability guarantee. The parimutuel mechanism guarantees mathematical self-sustainability: total distributions to accurate participants will never exceed total capital committed by all participants to that Forecast Question. Econsult Africa does not supplement, guarantee, or underwrite

Accuracy-Based Recognition from its own funds. You may receive no Accuracy-Based Recognition, and where Conviction Commitments have been made, you may lose some or all of the amount committed.

6.11 No guarantee of recognition. Econsult Africa does not guarantee that any User will receive Accuracy-Based Recognition. Participation involves the possibility of receiving no recognition. You should not participate with amounts or resources you cannot afford to lose or that would cause you financial hardship.

7. PLATFORM FEES AND CHARGES

7.1 Platform Fee amount. Econsult Africa charges a Platform Fee (currently 3.5%) on: (a) the total value of each Conviction Commitment processed; (b) the gross value of each position sale under Section 6.7; and (c) the gross Accuracy-Based Recognition distributed to each Registered Outcome Participant.

7.2 Characterisation. The Platform Fee is an operational service charge covering platform administration, infrastructure, editorial research and resolution operations, compliance controls, data processing, payment handling, and engineering. It is not, and shall not be construed as, a bookmaker margin, house edge, trading spread, commission on investment, management fee, or any form of risk-based pricing. The Platform Fee is fixed and identical regardless of which outcome is resolved.

7.3 Transparency. The Platform Fee applicable to any transaction is displayed to the User before the transaction is confirmed. Users who do not accept the applicable fee may decline to proceed.

7.4 Tax responsibility. You are responsible for any taxes, duties, or levies that may apply to your use of the Platform, including any income tax, capital gains tax, or withholding tax applicable in your jurisdiction. Econsult Africa may request tax-related information and documentation where reasonably necessary and may withhold or report where required by applicable law (including under the Kenya Revenue Authority's guidelines and equivalent bodies in other jurisdictions).

7.5 Fee amendments. Econsult Africa reserves the right to amend the Platform Fee rate on reasonable notice to Users. Fee amendments shall not apply retroactively to Conviction Commitments already submitted.

8. PAYMENTS, WALLET, AND FUNDS-FLOW ARCHITECTURE

8.1 Wallet funding and withdrawals. Users may deposit funds to their Wallet via supported payment methods (including mobile money platforms such as M-Pesa, and debit/credit card, facilitated by licensed third-party payment processors such as Pystack). The Platform operates in USD as the base currency; deposits and withdrawals are processed in local currencies (including KES, NGN, GHS, and others supported by the payment processor) at exchange rates determined by the payment processor and prevailing market rates at the time of transaction. Econsult Africa is not responsible for exchange rate fluctuations between deposit and withdrawal.

8.2 Not a deposit; no stored value. Wallet balances are internal ledger entries reflecting a User's available balance within the Platform. They are not bank deposits, savings, stored value, e-money, a general-purpose account balance, or a claim against Econsult Africa as issuer. The Platform does not operate a wallet, stored-value facility, or e-money issuance scheme regulated under the National Payment System Act, 2011 (Kenya), or equivalent legislation. Econsult Africa does not pay interest on Wallet balances.

8.3 Third-party payment providers; no custody. Payment processing is facilitated by licensed third-party payment service providers. Unless expressly stated otherwise under a separately

documented, licensed custody or payment service, Econsult Africa does not hold, store, or process User funds as a payment service provider, custodian, or trustee. Users may be subject to the terms and conditions of applicable third-party payment service providers.

8.4 Withdrawal processing. Users may withdraw available Wallet balances at any time to a registered mobile money or bank account. Econsult Africa processes withdrawals as promptly as operationally practicable. Withdrawal processing times depend on payment network conditions and may take up to five (5) business days. Econsult Africa reserves the right to conduct identity verification, fraud screening, and AML compliance checks before processing any withdrawal.

8.5 Compliance holds. Econsult Africa may hold, delay, reconcile, net, reverse, or refuse transfers where reasonably required for verification, compliance review, fraud detection, technical error resolution, legal obligations, dispute handling, or protection of data integrity and Platform integrity.

8.6 Chargebacks and reversals. If a payment is reversed, charged back, or otherwise invalidated by a payment provider, Econsult Africa may: (a) cancel affected Forecast Submissions; (b) reduce or cancel any pending Accuracy-Based Recognition; and (c) suspend your account pending review and resolution.

8.7 Dormant accounts. Accounts inactive for twenty-four (24) consecutive months may be subject to a dormancy review. Econsult Africa will make reasonable efforts to notify Users before taking any action regarding dormant account balances.

8.8 No interest or time-based value. Econsult Africa does not pay interest or any time-based value on Wallet balances, Conviction Commitments, or any amounts pending distribution.

9. USER RISK ACKNOWLEDGEMENTS AND VOLUNTARY PARTICIPATION

Important: Making a Conviction Commitment involves the risk of financial loss. You should only commit capital that you can afford to lose entirely. Past forecast accuracy — whether your own or the Platform's aggregate — is not indicative of future results.

9.1 Skill-based nature. You acknowledge that economic forecasting is an intellectually demanding activity requiring analytical skill, rigorous engagement with macroeconomic data, informed judgment, and continuous learning. Notwithstanding the application of skill, economic outcomes are inherently uncertain and may be affected by policy changes, exogenous shocks, measurement limitations, data revisions, and factors beyond any participant's control or foresight.

9.2 No guarantee. Econsult Africa does not guarantee that any User will receive Accuracy-Based Recognition. You may receive no recognition and, where Conviction Commitments have been made, may lose some or all of the Participation Amount committed. The Platform is designed for the purpose of contributing to and benefiting from collective intelligence on important economic questions — not as a vehicle for financial gain.

9.3 Voluntary participation. Your participation on the Platform is entirely voluntary. You should not participate with amounts or resources you cannot afford to lose or that would cause you financial hardship. You should only participate based on your own independent judgment and research, and you have not relied on any representation by Econsult Africa or its employees.

9.4 No reliance on Platform outputs. You agree not to treat the Platform, its Aggregated Outputs, Consensus Prices, or any information displayed thereon as a source of financial, investment, legal, tax, or professional advice, or as a substitute for independent professional counsel. Any use of Platform outputs to inform decisions is at your sole risk.

9.5 Jurisdictional compliance. You represent that: (a) you have assessed whether your participation — including any Conviction Commitment — is lawful in your jurisdiction; (b) your participation complies with all applicable professional, institutional, and regulatory obligations; and (c) you will cease using the Platform if your participation becomes unlawful in your jurisdiction.

10. RESOLUTION SOURCES, DATA INTEGRITY, AND FINALITY

10.1 Objective Resolution Sources. Each Forecast Question designates one or more objective Resolution Sources — such as official publications of national statistics agencies, central banks, international institutions, or other externally verifiable public data sources — used to determine outcomes. Econsult Africa's editorial and research team implements resolutions by reference to credible, authoritative, and publicly verifiable sources.

10.2 First-publication rule. Unless the Participation Rules for a specific Forecast Question state otherwise, resolution will rely on the first publication by the designated Resolution Source that satisfies the Forecast Question criteria at or after the scheduled resolution time. Subsequent data revisions by the Resolution Source generally do not retroactively alter a resolved outcome.

10.3 Disputes regarding Resolution. Disputes regarding the Resolution of a specific Forecast Question must be submitted in writing to legal@econsult.africa within fourteen (14) days of the Resolution announcement, with supporting evidence identifying the alleged error. Econsult Africa's editorial and research team will conduct a review. The outcome of that review is final and binding, subject to the manifest error provision below.

10.4 Delays, force majeure, and alternative resolution. If a Resolution Source delays publication, changes methodology, becomes unavailable, or publishes materially inconsistent data, Econsult Africa may (acting reasonably, in good faith, and with due regard for data integrity): (a) defer resolution; (b) designate a comparable objective alternative source; (c) revise the resolution method for that Forecast Question; or (d) cancel the Forecast Question and unwind affected Forecast Submissions (including after deduction of non-refundable third-party payment costs, where applicable).

10.5 Finality. Subject to manifest error, Econsult Africa's determination of outcomes and Accuracy-Based Recognition is final and binding for Platform purposes. This finality principle is essential to maintain data integrity, operational certainty, and the prevention of interminable disputes.

10.6 Manifest error. Econsult Africa reserves the right to correct a resolution determination if it identifies a clear and material error. In such cases, Econsult Africa may reverse or adjust Accuracy-Based Recognition and amend relevant records. No claim for loss resulting from a corrected manifest error shall arise against Econsult Africa.

11. PLATFORM INTEGRITY, PROHIBITED CONDUCT, AND ENFORCEMENT

11.1 Core integrity principle. Forecast Arena is an economic research instrument and economic intelligence asset. The integrity of its data, analytics, and Aggregated Outputs depends on honest, independent, and analytically grounded participation. Manipulation of forecasts, Users, outcomes, consensus indicators, or resolution processes is treated as a serious integrity breach and may constitute a criminal offence under applicable law, including the Computer Misuse and Cybercrimes Act, 2018 (Kenya) and equivalent legislation in other jurisdictions.

11.2 Prohibited conduct. Without limitation, the following conduct is prohibited:

- (a) Using bots, automated scripts, or programmatic tools to create accounts, submit forecasts, or influence consensus indicators, except where Econsult Africa has expressly authorised such use through a documented API programme;
- (b) Multi-accounting, nominee participation, proxy participation, or account sharing;
- (c) Collusion, coordinated manipulation, wash participation, or any attempt to mislead other Users or distort Aggregated Outputs;
- (d) Fraud, identity misrepresentation, provision of false or misleading information, or use of stolen or unauthorised payment instruments, which may constitute an offence under the Penal Code (Cap. 63, Laws of Kenya) and equivalent legislation;
- (e) Attempting to influence, corrupt, tamper with, or obstruct Resolution Sources, including through bribery, coercion, or interference with official data publication processes;
- (f) Exploiting software bugs, vulnerabilities, or security flaws, or attempting to reverse engineer, decompile, or circumvent access controls, contrary to the Computer Misuse and Cybercrimes Act, 2018 (Kenya);
- (g) Harassment, hate speech, doxxing, threats, defamation, or submission of unlawful content, contrary to applicable law including the National Cohesion and Integration Act (Cap. 170, Laws of Kenya);
- (h) Using the Platform for or in connection with money laundering, terrorism financing, sanctions evasion, proliferation financing, or any other illicit financial activity, which constitutes an offence under the Proceeds of Crime and Anti-Money Laundering Act, 2009 (as amended, 2023) (Kenya), the Prevention of Terrorism Act, 2012 (Kenya), and applicable international sanctions frameworks;
- (i) Scraping, copying, redistributing, selling, or commercially exploiting any data, content, or probability signals from the Platform without express written permission;
- (j) Any activity that would reasonably expose Econsult Africa to regulatory, reputational, legal, or operational risk.

11.3 Monitoring and investigation. Econsult Africa may monitor Platform activity for integrity and compliance purposes using automated systems, manual review, and analytical tools. We may request information from you in connection with any investigation. You agree to cooperate with any reasonable investigation in good faith.

11.4 Enforcement actions. Econsult Africa may impose enforcement measures including, without limitation: warnings; participation limits; feature restrictions; cancellation of Forecast Submissions; reversal or clawback of Accuracy-Based Recognition; temporary or permanent account suspension; account termination; forfeiture of Wallet balances where authorised by law or these Terms; and referral to relevant law enforcement or regulatory authorities.

12. IDENTITY VERIFICATION, AML/CTF, AND SANCTIONS COMPLIANCE

Proceeds of Crime and Anti-Money Laundering Act, 2009 (amended 2023) | Prevention of Terrorism Act, 2012 | Financial Reporting Centre Act, 2012 (Kenya)

12.1 Verification. Econsult Africa may require identity verification (KYC) at account creation and on an ongoing basis, including enhanced due diligence (EDD) depending on feature access, transaction volume, risk signals, and applicable legal obligations under the Proceeds of Crime and Anti-Money Laundering Act, 2009 (POCAML) (as amended, 2023) and the Financial Reporting Centre Act, 2012 (Kenya), and equivalent legislation in other jurisdictions. Failure to provide satisfactory verification

documentation may result in feature restrictions, account limitations, or termination.

12.2 Source-of-funds inquiries. Econsult Africa may request information and documentation regarding source of funds and source of wealth where required by applicable AML/CTF obligations. Failure to provide satisfactory information may result in feature restrictions, account limitations, or termination.

12.3 Sanctions and restricted persons. You represent and warrant that you are not: (a) listed on any applicable sanctions or restricted-party list, including lists maintained by the UN Security Council, OFAC (US Treasury), HMRC/OFSI (UK), or the African Union; (b) located in, organised under the laws of, or ordinarily resident in a comprehensively sanctioned jurisdiction; or (c) acting on behalf of or for the benefit of any sanctioned person or entity. Econsult Africa may screen Users against applicable sanctions lists, watchlists, and politically exposed persons (PEP) databases.

12.4 Suspicious activity reporting. Econsult Africa may monitor for and escalate suspicious activity. Where required by law — including under the obligation to file Suspicious Transaction Reports with the Financial Reporting Centre of Kenya under POCAMLA — Econsult Africa will report to competent authorities. Econsult Africa may freeze, delay, restrict, or refuse any transaction or account activity while reviews or investigations are ongoing, without prior notice to you where such notice is prohibited by law.

12.5 Record retention and regulatory cooperation. Econsult Africa retains records as required for compliance, audit, and legal purposes (not less than seven years under POCAMLA) and cooperates with lawful requests from regulators, courts, law enforcement, and other competent authorities in Kenya and other jurisdictions.

13. DATA RIGHTS, AGGREGATED OUTPUTS, AND USER CONTENT

Data Protection Act, 2019 (Kenya) | Office of the Data Protection Commissioner

Aggregated Outputs and Research Publication

13.1 Publication of Aggregated Outputs. You acknowledge that the Platform generates Aggregated Outputs from User participation data. Aggregated Outputs — including probability distributions, sentiment indices, and consensus indicators — may be published (including publicly), distributed, sublicensed, and used in Econsult Africa's research, advisory, and commercial economic intelligence products and services.

13.2 Anonymisation. Aggregated Outputs published externally will not identify individual Users. Research outputs are anonymised and aggregated by default, consistent with data protection principles and the research-compatible processing framework under the Data Protection Act, 2019 (Kenya).

Privacy and Personal Data

13.3 Privacy Notice. Econsult Africa processes personal data in accordance with its Privacy Notice (available on the Platform) and the Data Protection Act, 2019 (Kenya) and its implementing Regulations. The Privacy Notice explains how we collect, process, store, share, and protect personal data, including for identity verification, fraud prevention, integrity monitoring, analytics, publication of Aggregated Outputs, and compliance with legal obligations. By using the Platform, you consent to the collection, processing, and use of your personal data as described in the Privacy Notice.

13.4 Data protection by design. Econsult Africa implements data protection by design and by default, including data minimisation, encryption, pseudonymisation, and access controls appropriate to the nature and sensitivity of the data processed, in compliance with the Data Protection Act, 2019 (Kenya).

13.5 Data protection rights. Under the Data Protection Act, 2019 (Kenya), you have the right to: access your personal data; correct inaccurate data; request erasure of data (subject to legal retention obligations); object to processing; and lodge a complaint with the Office of the Data Protection Commissioner of Kenya. To exercise these rights, contact legal@econsult.africa.

13.6 Cross-border processing. Personal data may be processed across borders depending on service providers, User location, and operational requirements. Where required by the Data Protection Act, 2019 (Kenya), Econsult Africa implements appropriate safeguards for cross-border transfers.

User Content

13.7 License grant. If the Platform permits you to submit User Content (including commentary, rationale, and analysis), you grant Econsult Africa a worldwide, non-exclusive, royalty-free, sublicensable, perpetual license to host, store, reproduce, publish, translate, adapt, distribute, and create derivative analytical works from your User Content for the purposes of Platform operation, moderation, research, publication of Aggregated Outputs, and development of economic intelligence products.

13.8 Your representations. You represent and warrant that you own or have all necessary rights to submit User Content, that your User Content does not infringe any third-party intellectual property or other rights, and that it does not violate applicable law.

14. INTELLECTUAL PROPERTY

14.1 Econsult Africa's intellectual property. The Platform — including its software, algorithms (including the APM), analytics methodologies, branding, trade names ('Econsult Africa,' 'Forecast Arena,' 'The Economic Whisperer'), logos, user interfaces, scoring systems, Aggregated Outputs, probability data, editorial content, and underlying research frameworks — is owned by or licensed to Econsult Africa and is protected by the Industrial Property Act (Cap. 509, Laws of Kenya), the Copyright Act (Cap. 130, Laws of Kenya), and applicable intellectual property laws in other jurisdictions. All rights are reserved.

14.2 Aggregated Output ownership. The aggregated probability signals, sentiment indices, and forecast data produced by the Platform are proprietary information products of Econsult Africa. By submitting a Forecast Submission, Users grant Econsult Africa a perpetual, irrevocable, worldwide, royalty-free licence to use, reproduce, aggregate, anonymise, publish, and commercialise their Forecast data as part of Econsult Africa's information products. Individual Forecasts will not be attributed to specific Users without consent.

14.3 Limited license. Econsult Africa grants you a limited, revocable, non-exclusive, non-transferable, non-sublicensable license to access and use the Platform for its intended research participation and economic intelligence purposes, subject to these Terms.

14.4 Restrictions. You may not copy, scrape (without express authorisation), reverse engineer, decompile, disassemble, create derivative works from, or circumvent access controls on protected Platform elements. Unauthorised reproduction or distribution of Platform content may constitute an infringement of copyright under the Copyright Act (Cap. 130, Laws of Kenya) and equivalent legislation.

15. SUSPENSION, CANCELLATION, AND TERMINATION

15.1 Termination by User. You may close your account at any time by contacting support@econsult.africa. Upon closure, any available Wallet balance will be processed for withdrawal to your registered payment method, subject to identity verification and AML compliance requirements and deduction of any outstanding obligations.

15.2 Termination by Econsult Africa. Econsult Africa may suspend, restrict, cancel, reverse, or terminate your account and any associated Forecast Submissions where it reasonably believes it is necessary for compliance, fraud prevention, sanctions screening, dispute handling, operational integrity, technical error correction, investigation of integrity breaches, or protection of Econsult Africa, Users, or the public interest in data integrity.

15.3 Effect of termination. Upon termination, your right to access and use the Platform ceases immediately. Econsult Africa may retain and continue to use Aggregated Outputs and anonymised data. Sections 2, 7, 9, 13, 14, 16, 17, 18, 19, and 20 survive termination.

15.4 No liability for good-faith enforcement. To the maximum extent permitted by applicable law, Econsult Africa shall not be liable for losses arising from good-faith enforcement actions taken under these Terms, including cancellations, reversals, clawbacks, and account restrictions.

16. DISCLAIMERS

16.1 Research nature; no advice. The Platform provides economic intelligence, research outputs, and Aggregated Outputs, and enables voluntary research participation. Nothing on the Platform is financial, investment, legal, tax, accounting, or any other form of regulated professional advice. Econsult Africa is not a licensed financial adviser, investment manager, broker, or regulated financial institution.

16.2 No guarantees of accuracy or availability. Forecast outcomes, consensus indicators, Aggregated Outputs, and analytics may be incomplete, delayed, revised, or incorrect. Resolution Sources may change methodology, delay publication, or become unavailable. The Platform is provided on an 'as is' and 'as available' basis, without warranties of any kind, whether express, implied, or statutory, including implied warranties of merchantability, fitness for a particular purpose, and non-infringement.

16.3 Third-party services. Econsult Africa is not responsible for errors, delays, outages, or changes in third-party data sources, payment processors, network services, or telecommunications infrastructure.

16.4 Modification and discontinuation. The Platform may be modified, updated, interrupted, or discontinued, temporarily or permanently, for operational, compliance, technical, or commercial reasons, with or without notice.

17. LIMITATION OF LIABILITY

17.1 Exclusion of indirect losses. To the maximum extent permitted by applicable law, Econsult Africa, its directors, officers, employees, contractors, affiliates, and suppliers shall not be liable for any indirect, consequential, special, incidental, punitive, or exemplary damages, including loss of profits, loss of revenue, loss of goodwill, loss of data, business interruption, or loss of opportunity, howsoever arising and whether in contract, tort (including negligence), strict liability, or otherwise.

17.2 Aggregate liability cap. To the maximum extent permitted by applicable law, Econsult Africa's total aggregate liability arising out of or relating to the Platform and these Terms shall not exceed the greater of: (a) the total Platform Fees and/or Service Fees paid by you to Econsult Africa in the twelve (12) months immediately preceding the event giving rise to the claim; or (b) Kenya Shillings Ten Thousand (KES 10,000) / USD One Hundred (USD 100), whichever is greater.

17.3 Essential bargain. You acknowledge that the disclaimers and limitations in Sections 16 and 17 represent a fundamental element of the basis of the bargain between you and Econsult Africa, and that Econsult Africa would not provide the Platform without these limitations.

17.4 Mandatory rights preserved. Nothing in these Terms excludes or limits any liability that cannot be lawfully excluded or limited under applicable mandatory law, including the Consumer Protection Act, 2012 (Kenya) and applicable consumer protection legislation in other jurisdictions where mandatory rights cannot be waived.

18. INDEMNIFICATION

18.1 You agree to indemnify, defend, and hold harmless Econsult Africa and its directors, officers, employees, contractors, affiliates, agents, and suppliers from and against any and all claims, demands, damages, liabilities, losses, costs, and expenses (including reasonable legal fees and disbursements) arising out of or related to: (a) your breach of these Terms; (b) your User Content; (c) your misuse of the Platform; (d) your violation of applicable law, regulation, or third-party rights; (e) any false representation made by you in connection with these Terms or the Platform; or (f) any third-party claim arising from your participation on the Platform.

18.2 Econsult Africa reserves the right, at its own cost, to assume exclusive defence and control of any matter otherwise subject to indemnification by you. You agree not to settle any matter without the prior written consent of Econsult Africa.

19. DISPUTE RESOLUTION

Arbitration Act (Cap. 49, Laws of Kenya) | Nairobi Centre for International Arbitration Rules

19.1 Good-faith resolution. Before initiating any formal dispute proceedings, you agree to contact Econsult Africa at legal@econsult.africa and attempt to resolve the matter informally and in good faith within thirty (30) days of providing written notice of the dispute.

19.2 Binding arbitration. Unless prohibited by applicable mandatory law, any dispute, controversy, or claim arising out of or relating to these Terms or the Platform that is not resolved informally shall be referred to and finally resolved by arbitration under the Arbitration Act (Cap. 49, Laws of Kenya), seated in Nairobi, Kenya, under the rules of the Nairobi Centre for International Arbitration (NCIA), by a single arbitrator mutually agreed by the parties or, failing agreement, appointed by the NCIA. Proceedings shall be conducted in English. The arbitrator's award shall be final and binding and may be entered as a judgment in any court of competent jurisdiction.

19.3 Interim relief. Nothing in this Section prevents either party from seeking interim, provisional, or injunctive relief from the High Court of Kenya or any court of competent jurisdiction in any relevant jurisdiction, to protect rights pending the outcome of arbitration.

19.4 Class action waiver. To the maximum extent permitted by applicable law, you agree that any dispute resolution proceedings will be conducted only on an individual basis and not in a class, consolidated, or representative action.

19.5 Resolution disputes. Disputes regarding the Resolution of a specific Forecast Question must be submitted within fourteen (14) days of the Resolution announcement, with supporting evidence identifying the error. Econsult Africa's editorial team will conduct a review. The outcome of that review is final and binding, subject to manifest error.

20. GOVERNING LAW AND JURISDICTION

20.1 These Terms are governed by and construed in accordance with the laws of the Republic of Kenya, without regard to conflict-of-laws principles. Subject to Section 19, the High Court of Kenya shall have exclusive jurisdiction over any disputes arising out of or relating to these Terms.

20.2 Notwithstanding Section 20.1, Econsult Africa retains the right to enforce intellectual property rights and seek injunctive relief in any jurisdiction where a User is located or where a breach is occurring or threatened.

20.3 The United Nations Convention on Contracts for the International Sale of Goods (CISG) does not apply to these Terms.

21. AMENDMENTS

21.1 Right to amend. Econsult Africa may amend these Terms from time to time to reflect changes to the Platform, risk controls, compliance posture, applicable law, or operational requirements.

21.2 Notice. Econsult Africa will post updated Terms on the Platform with an updated effective date. For material changes, Econsult Africa will endeavour to provide at least fourteen (14) days' advance notice to registered Users via email or in-Platform notification.

21.3 Acceptance. Continued use of the Platform after the effective date of updated Terms constitutes acceptance of the amended Terms. If you do not agree to amended Terms, you must discontinue use of the Platform before the effective date of the amendments.

22. GENERAL PROVISIONS

22.1 Severability. If any provision of these Terms is held invalid, illegal, or unenforceable, the remaining provisions shall continue in full force and effect. The invalid provision shall be modified to the minimum extent necessary to make it valid and enforceable while preserving its original intent.

22.2 No waiver. Econsult Africa's failure to exercise or enforce any right or provision of these Terms shall not constitute a waiver of such right or provision.

22.3 Assignment. You may not assign, transfer, or delegate these Terms or any rights or obligations hereunder without Econsult Africa's prior written consent. Econsult Africa may assign these Terms to an affiliate, successor, or acquirer without your consent.

22.4 Entire agreement. These Terms, together with all policies and documents incorporated by reference (including the Privacy Notice and applicable Participation Rules), constitute the entire agreement between you and Econsult Africa with respect to the Platform and supersede all prior or contemporaneous agreements, understandings, negotiations, and discussions, whether oral or written.

22.5 Force majeure. Econsult Africa shall not be liable for any failure or delay in performing its obligations to the extent resulting from circumstances beyond its reasonable control, including natural disasters, pandemics, war, terrorism, government actions, regulatory changes, power failures, internet outages, or failures of third-party service providers.

22.6 Survival. Provisions that by their nature should survive termination of these Terms shall survive, including Sections 2 (Platform Identity), 9 (Risk Acknowledgements), 13 (Data Rights), 14 (Intellectual Property), 16 (Disclaimers), 17 (Limitation of Liability), 18 (Indemnification), 19 (Dispute Resolution), and 20 (Governing Law).

22.7 Language. These Terms are drafted in English. In the event of any conflict between an English-language version and any translation, the English-language version shall prevail.

22.8 Relationship of the parties. Nothing in these Terms creates a partnership, joint venture, agency, franchise, or employment relationship between you and Econsult Africa.

23. CLICKWRAP ACKNOWLEDGEMENT

By creating an account or submitting a Forecast Submission on Forecast Arena, you confirm that you have read, understood, and agree to these Terms of Use and the Privacy Notice, and you specifically and irrevocably acknowledge that:

- (a) Forecast Arena is an economic intelligence, sentiment aggregation, and research participation platform — not a gambling product, betting service, investment product, securities or derivatives market, deposit-taking service, or e-money facility under applicable Kenyan law or the law of any other applicable jurisdiction;
- (b) Any monetary engagement (where enabled) is a transaction-specific signal-enhancement mechanism designed to encourage honest, informed, analytically grounded economic forecasting; it is not a wager, bet, or game of chance;
- (c) You may receive no Accuracy-Based Recognition and, where you have made a Conviction Commitment, you may lose some or all of the capital committed;
- (d) Econsult Africa does not set odds, does not act as a bookmaker or counterparty, and does not take the opposite side of any User Forecast Submission;
- (e) Outcomes are determined using objective, externally verifiable Resolution Sources, and Econsult Africa's Resolution determinations are final except in cases of manifest error;
- (f) Econsult Africa may require identity verification and may restrict, cancel, reverse, or suspend participation to protect compliance, data integrity, Platform integrity, and User safety;
- (g) The Platform publishes Aggregated Outputs derived from User participation, which may be used in Econsult Africa's research and commercial economic intelligence products; and
- (h) You have assessed and are satisfied as to the legal status of your participation in the Platform in your jurisdiction of residence.
